Forecast For London & Southeast England
Issued by Met Office Exeter
at 0400 on Thursday 12 Aug 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Dull and cloudy day for most. Some southeastern coasts brighter.

Today:
Bright start for some southeastern areas, with sunny spells, but cloudier across much of the region with the odd spot of drizzle. Cloud persisting for much of the day, with the best of any brighter spells remaining across southeastern coasts. Maximum temperature 24 deg C (75 deg F).

Tonight:
Cloud will gradually break and clear southeastwards through the first half of the night. Clear spells then developing, becoming increasingly prolonged through the early hours of Friday. Staying dry. Minimum temperature 10 deg C (50 deg F).

Friday:
Dry start with sunny spells. Areas of thicker cloud then developing, spreading east late morning and afternoon. The odd spot of rain or drizzle developing, mainly in the west. Maximum temperature 23 deg C (73 deg F).

Outlook for Saturday to Monday:
Low confidence in this period, but most parts fine Saturday and probably Sunday with spells of warm sunshine. Chance of thicker cloud with rain, however. Cooler Monday, with showers likely.
